China, 2010
Master of Science, Huazhong University of Science and Technology, Wuhan
China, 2010

A Dissertation presented to the Graduate Faculty
of the College of William and Mary in Candidacy for the Degree of
Doctor of Philosophy

Department of Computer Science

The College of William and Mary
June 2016

APPROVAL PAGE

This Dissertation is submitted in partial fulfillment of
the requirements for the degree of

Doctor of Philosophy

_____
Student Name

Approved by the Committee, June 2016

_____
Committee Chair
Advisor Name, Computer Science
The College of William and Mary

_____
Professor Weizhen Mao, Computer Science
The College of William and Mary

_____
Associate Professor Denys Poshyvanyk, Computer Science
The College of William and Mary

_____
Professor Haining Wang, Electrical and Computer Engineering
University of Delaware

_____
Outside Committee Member, Applied Science
The College of William and Mary

ABSTRACT

This is the abstract text. Replace this text in the abstract.tex file.
This is how paragraphs are separated for the abstract text.
One of the physical standards is that the abstract is at most one page.!
The final paragraph looks like this.

TABLE OF CONTENTS

ACKNOWLEDGMENTS

I would like to thank the numerous people who helped me in preparing this dissertation. Without their hard work, patience, and guidance it would not have been possible.

First, I would like to thank my advisor...

Next, I would like to thank my current and past research group members including ...

Lastly, I would like to thank our Computer Science Department Chair, Professor Robert Michael Lewis, and the wonderful Computer Science administration team, Vanessa Godwin, Jacqulyn Johnson, and Dale Hayes.

I would like to dedicate this dissertation to my parents, Jane and John Doe who provided endless support and love throughout my time at William and Mary.

Chapter 1

Introduction

This is where the content of your dissertation goes. You can directly include chapters like the introduction, related work, conclusion, and future work in this file. You can also call "\input{}" in this file to include your other papers and .tex documents easily. When looking at the raw .tex version of this section, you can see how to use input and separate chapters as a comment below.

Here I will make a citation: [1]. You must have at least one citation for "$make all" to finish successfully! Also, please note the type of quotations used.
